MASK6C-BL

6.5" design two-way loudspeaker
black with Clickmount system

The MASK6C low impedance loudspeaker has a unique design and delivers a crystal clear sound for background sound up to dance level music. The cabinet is made of high quality enforced PP4 ABS, with an aluminium grill. The design of the MASK6C ensures high quality and long lasting performance in indoor and outdoor use, even under extreme weather conditions. The MASK6C has a powerful 6.5” coated paper cone woofer and a 1” silk dome tweeter which results in a high SPL and extremely low distortion.

This ensures an unprecedented clarity over the whole frequency spectrum. The built-in Apart 3-step protection and the high-quality components make the MASK6C an ultra- reliable, fail safe loudspeaker even at high power loads. Thanks to the revolutionary design of the ClickMount bracket, the MASK6C is without a doubt the fastest and most installer friendly loudspeaker to-date. The pre-defined clicks on the ClickMount ensure a perfect alignment for every loudspeaker. With the discrete cable management system, integrated spirit level and in/out connectors, the full cabling is done on the bracket. To complete the installation simply click the loudspeaker on the ClickMount!
